

## Stock Market Game

*You get \$100,000 to invest in the Stock Market, this will be played over the next few months. Your mission is to be the best investor in the class!!*

Here are the Rules:

- You have \$100,000 to invest in the stock market and you must purchase at least 4 different stocks throughout the game. You can invest as much as you want in each stock. Don't limit yourself to only 4 stocks, you can buy as many as you want
- The stocks you purchase must be traded on the U.S. stock market.
- All stocks must have a value of at least \$2.00 in order to purchase them
- You can choose to invest all of the money, or only part of it. The money left in cash will earn an interest rate of 3.0% annually
- Your task is to make as much money as you can over the next month
- You can buy and sell stocks, but remember each transaction (buy and sell) will cost you \$10.00 commission
- You are able to trade anytime, at home, at lunch, after school and in the allotted class time
- If you lose all your money... too bad! You will NOT get anymore. That is the nature of the stock market. So remember do research and make informed decisions! Or just get lucky.

**Good luck ..... and don't forget to ... Have Fun!**

**The investor who is most successful at the end of the game will receive a Prize and be crowned Top Stock Investor!**
